SOCIOLOGICAL ABSTRACTS is published by Sociological Abstracts Inc., a non-profit corporation. 5 issues are published in: April, June, August, October, December. Subtions are \$200 per year. Single issues are \$50. A cumulative index issue will be published within 9 months of the last issue. Index issues are \$40.00. Supplement issues \$5 to libraries when & if available. Please make remittances payable by cheque to Sociological Abstracts Inc. When paying by UNESCO Book Coupons please add 10% for Bank charges. When paying by International Money Order, please include library order number or SA invoice number. Please add \$10 for postage per subscription.

Second Class Postage paid at La Jolla, CA, and at additional mailing offices.

NOTICE: Claims for missing issues must reach the editorial office within 60 days of date of publication; for FOREIGN subscribers, within 90 days. Notify us, as well as the U.S. Post Office, of change of address as early as possible. The U.S. Post Office does not forward journals. It destroys them, unless specifically instructed not to do so. Issues missing as a result of failure to inform us in time of a change of address will not be replaced free of charge.

POSTMASTER: Send address changes to Sociological Abstracts, P.O. Box 22206, San Diego, CA 92122-0206.

ACKNOWLEDGEMENTS

Special thanks are due to the hundreds of scholars, professional sociologists, and student volunteers who have prepared abstracts of their own or of their colleagues' publications and submitted them for inclusion in SA. We wish to thank the Program Chairpeople and association Executive Officers for their aid and cooperation in the preparation of Supplements, which are produced on very short notice. We also wish to thank our staff who work in, around, and with the whims of our computer; but who nevertheless produce the final product. We wish also to mention Mrs. Agnes Wise of The Science Press who has given great attention and expertise in the speedy production and shipping of the association Supplements for distribution at regional, national, and international conventions.

Our appreciation goes to the publishers who send us their journals gratis, and to the many editors who prevail upon their authors to supply us with detailed/informative abstracts of their articles.

introduction

This volume contains the cumulative indexes for all five issues/numbers of sociological abstracts (SA) Volume 30, 1982. Each issue/number of SA consists of a body of abstracts of articles/papers published in the serial literature, and classified into 69 narrow and 32 broad subject matter areas meaningful to sociologists and other social scientists.

Each issue/number begins with a Table of Contents (classification areas). At the end of the classified abstracts section of each SA issue, there appears a detailed and complete subject index, a listing of all authors in an author index, and a source index listing the journals which were abstracted with a bibliographic entry for each item. Thereafter the Supplements are bound in sequence of their appearance. First, come the Supplements that contain abstracts of association/conference papers (such Supplements are numbered sequentially, and during the 1982 year, Supplements 114-119 were published). Next in order comes the Supplement (IRPS No. 11-15) that is regularly bound into each SA issue, the International Review of Publications in Sociology (IRPS) - new series - which contains two sections; the first presenting abstracts of books and the second section, in alphabetical order, all book reviews from the serials abstracted. Each IRPS Supplement contains a source index (showing where the reviews originally appeared) and a reviewer index; an authors-of-the-books reviewed index is not provided since the reviews are printed in alphabetical order by author of the book.

The last yearly issue of SA, the No. 5 issue, contains a separate, annual section numbered 9000 which has been added to facilitate the publication of abstracts of conference papers presented at various association meetings which, for one reason or another, reached our editorial office too late for inclusion into the appropriate Supplement.

Each document (article/paper, conference paper, book review) SA receives and lists is given an accession number; an identifying characteristic is included in the number so that, once the characteristic of an accession number is noted, one can infer with certainty whether the document is (a) an article/paper published in the serial literature, (b) a paper presented orally at a conference of sociologists, (c) a book review entry, or (d) an abstract of a book.

The types of documents SA abstracted and the accession numbers they received in 1982, Volume 30, are as follows:

| (a) The Serial Literature | SA Issue Number | Accession Numbers |
|--|--------------------|----------------------|
| There are 7,454 abstracts from the | 30/1 | L9554 - M1214 |
| published serial literature with each | 30/2 | M1215 - M2874 |
| document/article receiving a four-digit | 30/3 | M2875 - M3819 |
| number with an uppercase alpha prefix. | 30/4 | M3820 - M5400 |
| Volume 2 of SA began with 0001. The current Volume 30 contains the accession | 30/5 | M5401 - M7008 |
| numbers listed here. | | |

| | supplement | Accession |
|--|--------------|-----------------|
| (b) Association/Conference Papers | Number | Numbers |
| There are 1,721 abstracts of papers | 114 (SAASRS) | S13473 - S13521 |
| published in Supplement Nos. 114-119. | 115 (NCSA) | S13522 - S13601 |
| Such abstracts have been assigned five- | 116 (ISA) | S13602 - S14680 |
| digit numbers prefixed with an uppercase | 117 (RSS) | S14681 - S14770 |
| S. The first time such an accession | 118 (SSSP) | S14771 - S14974 |
| number was used was S00001 in Supplement | 119 (ILLSA) | S14975 - S15002 |
| No. 30, February 1973. | Section 9000 | S15003 - S15193 |
| Section 9000 began appearing in each | | |
| dance offeeting with Volume 25 No 2 | | |

Section 9000 began appearing in each issue effective with Volume 25, No. 2, 1977. Beginning with Volume 29, the section is published annually in the No. 5 issue.

number contains five digits and is prefixed by a lowercase "c." *Please see ERRATA next page.

reviews listed in the current volume. There were 95 book abstracts listed in the current volume. The accession

The cumulative indexes are printed in the following sequence:

Subject Index
Author Index
Source Index
Index of Authors of Books Reviewed

A word of explanation on each of the indexes is in order to simplify their use in locating the desired information.

CUMULATIVE SUBJECT INDEX

The CSI contains all subject entries from abstracts of the articles/papers published in the literature as well as those from association/conference papers. The distinguishing characteristic is the accession number: if it is a four-digit number with a letter prefix L or M, the subject entry derives from an article/paper published in a journal; and, if it is a five-digit number prefixed with an uppercase S, it is a subject entry from a paper presented orally at an association/conference meeting.

CUMULATIVE AUTHOR INDEX

This index contains three types of authors: authors whose articles are abstracted from the serial literature (letter prefix L or M, followed by a four-digit number), authors who read papers at an association/conference meeting (letter prefix S followed by a five-digit number) or authors of book reviews (letter prefix "a" followed by a five-digit number), or authors of books abstracted (letter prefix "c" followed by a five-digit number).

ERRATA ...

Subsequent to publication of IRPS Supplement No 12, it was noted that a computer error had caused the last 400 accession numbers from IRPS No 11 to be repeated in IRPS No 12, i.e., a13521 - a13920. Although corrections could not be made to the already published issue, our computer tapes have been amended in such a way as to add the letter "a" to the end of all 400 erroneously duplicated numbers. Thus, the first 400 accession numbers in IRPS No 12 have now been corrected, and the cumulative indexes for authors, serials, and book reviewers will incorporate this correction, with the numbers in question appearing as a13521a - a13920a.

Some authors desire to further disseminate their writings and have offered them on fiche or through our **Reproduction Service**. Authors whose documents are available on fiche are starred; those whose documents are available through xerography are identified with a black dot. For information on our **Reproduction Service** please see page 2039 in this volume or our announcements in any recent issue of SA.

CUMULATIVE SOURCE INDEX

This is a listing of all serial titles, with their addresses, that SA Inc. has been receiving over the years to screen for pertinent articles. This is not a definitive list, since serials are born and die yearly and often considerable time elapses before cessation information becomes available. Journals also change names, publishers, and editors. SA Inc. does not record changes of editors in this index, but whenever the information is available we record changes of titles (or the availability of equivalent titles in other than English language) as well as the dates that such changes occurred. We also include the volume number and year of expiration of the journal. SA carries the names of such expired serials for at least a five year interval.

Effective with Volume 30, the degree of coverage of the content of each journal listed is identified, ie, Fully covered - every article, research note, and book review that appears in the journal is abstracted or cited; or Partially covered - a selection of relevant articles, research notes, and reviews are abstracted or cited. The designations are: SA-F (full coverage) and SA-P (partial coverage).

The same information is presented for SA's sister publication - Social Welfare, Social Planning/Policy, and Social Development (SOPODA), and Language and Language Behavior Abstracts (LLBA).

The abstracts and book reviews published from a given serial are listed immediately under the title and address of the serial, in sequential page order, with a complete bibliographic entry. The last number represents the SA accession number (the letter L and a four-digit number, or the letter "a" or "c" with a five-digit number - the capital letter representing articles, and the lowercase letters representing book reviews [a] and book abstracts [c] respectively).

In addition, the Supplements published for associations of sociologists can be found in the proper alpha order by name of the association with all the accession numbers (with letter S and a five-digit number) presented in order of appearance.

Any of four symbols may appear immediately before the entry of serials. Their meanings are as follows:

- ★Journals starred are new. They have been added for abstracting as of the current SA volume.
- Journals with a black circle indicate that they ceased publication. Wherever possible the date of cessation is indicated.
- ▼Journals with an inverted triangle indicate that the journal is no longer abstracted.
- ◆ Journals with a diamond indicate that the publisher of the journal and SA, Inc. have agreed to provide to all requesting them, copies of original documents (abstracts of which appeared in SA) under conditions specified by the copyright law. See page 2039 for conditions of our Deproduction Service.

CUMULATIVE INDEX OF AUTHORS OF BOOKS REVIEWED

This index was created to separate authors of books that are <u>reviewed</u> from authors of articles/papers abstracted and from authors of book reviews (reviewers).

When the book review citation in the serial in which the review appeared indicates that the author edited the book, the designation [Ed] is appended to his/her name in the index. In all other instances, it is safe to assume that the book was authored by a single individual.

subject index

Ability/Abilities

ability grouping; teacher-student interaction, learning environment; observation, interviews, videotaped lessons; first-graders; M2244 ability level testing, black vs white sixth- & eighth-graders; test bias; M6323

adolescents' intellectual abilities; sex roles, personality; Bem Sex-Role Inventory, Study of Values, public/private school; M6574 capacities/interests/values, perceived importance; ability, race, socioeconomic status; Dalton Vocational Importance Questionnaire;

students aged 11-18, Georgia; M6145

Catholic/public education comparison, teacher training/pupils' ability/higher education attendance; 1965/66 census questionnaire data; M4751

elderly, functional ability measurement/chronic health conditions; specific instruments' adequacy; interviews; Manitoba, Winnipeg, Canada, 1971; M2677

intellectual abilities maintenance, adult development; lifestyle; Life Complexity Inventory, longitudinal study; age 40-88; M0992 linguistic ability; sex/age/acquisition differences; Dutch-speaking test subjects; S14590

mathematical abilities, sex differences; innate vs environmental factors; women's education implications; M4075

Ramiro, Nicolás, el Animal ladino, human needs/abilities examined;

survival, tool-making/-using perspective; M3961 school evaluation; endogenous ability data vs socioeconomic status measures; test scores, questionnaires; US student samples, 1961-1969; M1238

schools' mental ability tests adoption, tracking relationship, California cases, 1910-1925; M4726

social class/ethnic groups' differing mental ability; family configuration; national longitudinal data; M4088

spatial ability; sex-typing; Jean Piaget's water-level task; college undergraduates; M1549

track choice vs actual placement; ability, socioeconomic status, "revisionist-meritocratic debate" evidence; questionnaire; eighth-grade students, central New York; M6291

Aborigine/Aborigines/Aboriginal aboriginal migration, ethnicity, adaptations, Adelaide, South Australia; changes, backgrounds, migration reasons, attitudes, common ethnic identity; L9900

education community control, Australian Aborigines, Strelley School case; M4155

intercultural communication, European Australians, Australian aboriginals; ambiguity, gratuitous concurrence; M0393 pica epidemic, sedentarism result, exnomadic aborigines, Australia; M5827

Abortion/Abortions

abortion as crime, Islam religion; M6402 abortion attitudes shifts, 1972-1978; M5949

abortion controversy, US; prolife vs prochoice assertions; M1876 abortion questions, survey responses; questionnaire context, survey results comparison; M1253

abortion rates, 1973-1975; abortion service availability, demographic characteristics, socioeconomic/medical personnel variables; US Standard Metropolitan Statistical Areas data; M0682

abortion, demand, recipients' socioeconomic/demographic characteristics, India, West Bengal focus; M6501

abortion, "self-management" experiences; interviews; women gynecology students, Liguira, Genoa, Italy; M6701

abortion, US government policy issues; policy principles, government role/support, Medicaid assistance question, abortion rights advocates'/opponents' concessions, M0683
abortion, US, 1977/78; statistical summary, metropolitan areas

concentration, state-level data, users' demographica; M0691 antiabortion/disinterested reform movement dynamics; status politics/symbolic crusade thesis; interviews; leaders; \$15063

family planning/abortion legislation, Europe; M6534 family planning/counseling, Brazil; abortion attitudes; M5209

family planning/marriage counseling, France; voluntary abortion laws; M5207 hospital abortion, fertility-related services, Maryland; affiliated

physicians' negative attitudes; interviews, records review; obstetricians, gynecologists; M0308 ideal family size; proabortion attitudes, religious affiliation, Mario Renzi's hypothesis extended; M2315

legal abortion recourse; socioeconomic determinants; international data; M6951

medical practice; professional norms, personal attitudes, abortion, telephone interviews, mailed questionnaire; private obstetricians, Maryland; M3426

problem pregnancy decisions, abortion vs birth; discriminators; interviews; M2848

religious involvement, abortion, asceticism; young, black, low-income women; protocols, follow-ups; abortion/maternity patients; M0550 repeat induced abortion; single/married/divorced women;

questionnaires; clinic patients; M6604 repeated abortion, 1973-1979, research review, methodological/data collection problems; M4922

right-to-life movement; elites/mass publics' ideological differences; M3284

single-interest pressure group operations; antiabortion campaign example; M0199

small groups, communication sequence; persuasion; abortion discussion undergraduates; M1483

teenager pregnancy, abortion, contraception; US Supreme Court decisions, states' policies, statutes reviewed; M0806 voluntary abortions, regional variations, Italy; women's/couples' attitudes, accessibility; M4908 women refused National Health Service abortion, experiences;

women refused National Health Service abortion, experiences; interviews; Wessex women, GB; M6919

Absence: Absences absence apotheosis, Alberta Hutterites; structural analysis, pragmatic communication theory, symbology; M0562
